ABOUT ME

Passionate software engineer dedicated to working smart and staying at the forefront of technology. I bring a blend of innovation and efficiency to every project, thriving in dynamic environments. Skilled in diverse programming languages, I'm committed to delivering elegant solutions and contributing to cutting-edge advancements in the field.

PROFESSIONAL EXPERIENCE

Trainee Software Engineer (Full Time)

July 2023 - Present

IJSE - Institute of Software Engineering | Panadura

Zen-Chat-App v1.0.0

Designed and developed a real-time chat application with a focus on user engagement and responsiveness. Users can seamlessly connect after signing in or creating an account, enjoying instant communication on various devices.

Applied Tech Stack: Spring Framework | WebSocket | Hibernate Validator | Lombok | JavaScript | CSS | HTML5 | Firebase

Smart POS v1.0.0

This Point of Sale system is designed to streamline the sales process, manage inventory, and provide a user-friendly interface for both customers and staff.

Applied Tech Stack: Java | PostgreSQL | javaFX | Regular Expression

Google Web Design Clone

Practiced CSS and HTML skills by recreating the Google search interface from scratch. No frameworks, just pure coding! The search tab is linked to a programmable Google search engine, making it fully functional.

Applied Tech Stack: HTML5 | CSS
